BS Software Engineering — Final grade: 3.45 / 4.00

Key modules: Software Project Management, Artificial Intelligence, Software Engineering, Machine Learning, Agile Methodologies

GOVT. BOYS DEGREE COLLEGE MINAWAR, GILGIT (Jul 2019 - Apr 2021)
12th Certificate — Final grade: A

ARMY PUBLIC SCHOOL AND COLLEGE JUTIAL, GILGIT (Mar 2015 - Apr 2017)
10th Certificate — Final grade: A

WORK EXPERIENCE

CODING PIXEL (Current)
MERN Stack Developer — Lahore, Pakistan

- Developing and maintaining full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Collaborating with team members to design and implement responsive user interfaces.
- Building and integrating RESTful APIs for backend functionality.
- Participating in debugging, code reviews, and agile development practices.

PROJECTS

AI-Based Bug Detection in CI/CD Pipelines
Delivered an AI-powered solution to proactively detect software bugs and vulnerabilities within CI/CD pipelines. Used machine learning to analyze source code metrics and identify issues before deployment, integrating with Jenkins and GitLab CI for real-time bug prediction and security checks. Involved dataset preprocessing, model training, and integration with a user-friendly web app.
