ot Astore, Pakistan **Nationality:** Pakistani

ABOUT ME

Enthusiastic and detail-oriented MERN Stack Developer with a strong foundation in building end-to-end web applications. Proficient in React.js for crafting interactive front-end interfaces, Node.js and Express.js for developing robust backend services, and MongoDB for efficient data management. Adept at problem-solving, debugging, and collaborating in fast-paced development environments. Committed to writing scalable, maintainable code and staying updated with the latest industry trends.

EDUCATION AND TRAINING

[05/10/2021 – 06/06/2025]

BS Software Engineering

The University Of Haripur

City: Haripur | **Country:** Pakistan | **Final grade:** 3.45 / 4.00

The major modules I studied during this degree are:

- Software Project Management
- Artificial Intelligence
- Software Engineering
- Machine Learning
- Agile Methodologies

[03/07/2019 – 10/04/2021]

12th Certificate

Govt. Boys Degree College Minawar Gilgit

City: Gilgit | **Country:** Pakistan | **Final grade:** A

[05/03/2015 – 05/04/2017]

10th Certificate

Army Public School And College Jutial Gilgit

City: Gilgit | **Country:** Pakistan | **Final grade:** A

WORK EXPERIENCE

Coding Pixel

City: Lahore | **Country:** Pakistan

[Current]

MERN Stack Developer

Developing and maintaining full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Collaborating with team members to design and implement responsive user interfaces. Building and integrating RESTful APIs for backend functionality. Participating in debugging, code reviews, and agile development practices.

LANGUAGE SKILLS

Mother tongue(s): Shina **Other language(s):** English , Urdu

PROGRAMMING SKILLS

Languages

Languages : JavaScript, TypeScript, HTML, CSS

Stack : MongoDB, Express.js, React.js, Node.js

Tools : Git, Postman, Redux, Tailwind CSS

Projects

Project Title: AI-Based Bug Detection In CI/CD Pipelines.

This project delivers an AI powered solution to detect software bugs and vulnerabilities proactively within CI/CD pipelines.Using machine learning techniques,the system analyzes source code metrics to identify potential issues before deployment.integrated with tools like Jenkins and GitLab CI, it enhances the software development workflow by providing real-time bug prediction and security checks.The project involved dataset preprocessing, model training and integration with a user friendly web app.This system supports modern DevSecOps practise by improving code quality and reducing delivery risks.

COMMUNICATION AND INTERPERSONAL SKILLS

Soft Skills

- Team Collaboration and Leadership
- Problem-Solving and Analytical Thinking
- Creative Thinking and Writing
- Adaptability and Time Management
- Work Ethic, Responsibility and Continuous Learning
